Editorial

Dear Readers,

We are pleased to announce the publication of our May 2026 issue.

In this Volume 10, Issue 1 of May 2026, research articles from different subject areas are covered and from authors of different countries. Articles published in the Journal of Interdisciplinary Sciences (JIS) will also be uploaded and archived in the Directory of Open Access Journals (DOAJ) and other scientific indexes for wider visibility and reachability.

To make it a broader interdisciplinary journal, JIS has accumulated articles from various multidisciplinary subjects with the intention of creating a one-platform gateway for all, providing easy access for readers worldwide.

Submission to JIS is open to authors from all disciplines. JIS has maintained a free, service-oriented academic platform for all since its founding, and the expenses are covered by the editor, which makes us feel that we are achieving our intended objectives towards a 'Felt-Positive need Motivation' (FPM) of 'Need for Serving' (NServe) and 'Need for continuation and contributing' (NCont/Cntrb).

We look forward to increased participation to help Enrich the Beautiful Minds toward Developing Intelligent Minds.

Thank you very much.

Let us join and collaborate together to **ENRICH the BEAUTIFUL MINDS
TOWARDS INTELLIGENT MINDS**
